styles. In this respect, it is possible to refer to the essay "A Sedimentation of the Mind: Earth Projects" by Robert Smithson, which reveal the new style in the modern art, Earth Art.

~~A Sedimentation of the Mind: Earth Projects—Robert ...~~

Smithson conceived of the sedimentation of matter, oxidation, hydration, carbonization, rock and mineral disintegration, as all viable methods that could be turned to the making of art. He goes on to critique technological ideology, saying it has no sense of time other than its immediate "supply and demand."

Robert Smithson whose 1968 essay "The Sedimentation of the Mind: Earth Projects" provided a critical framework for the movement as a reaction to the disengagement of Modernism from social issues as represented by the critic Clement Greenberg.

~~A Sedimentation of the Mind: Earth Projects—Essay~~

A Sedimentation of the Mind: Earth Projects The earth's surface and the figments of the mind have a way of disintegrating into discrete regions of art. Various agents, both fictional and real, somehow trade places with each other— one cannot avoid muddy thinking when it comes to earth projects, or what I will call "abstract geology."

~~Sedimentation Rate—an overview | ScienceDirect Topics~~

Maurice Merleau-Ponty coined the term 'sedimentation' in his book Phenomenology of Perception (1945). He uses it to describe the process of taking on information about our bodies and environment in a form that enables us to act intelligently without much attention, effort or thought.
