New 12-Core 1U Rackmount Servers with Next-generation Intel Xeon 5600 now up to 50% faster and saves 85% on energy cost. ... This month special: \$375 - 3.0GHz 1U Rack Server. 100% Custom. 3-Year Warranty for \$0!

## Acces PDF A Servers Super Micro

Supermicro provides the most outstanding product line in the industry, ranging from single Atom™ and dual Xeon® to quad Xeon® MP systems. Their proven high level of quality and performance has made SuperServers the platform of choice for HPC, enterprise, cloud, data center, hyperscale, embedded, and business-critical, front-end server applications.

### Supermicro - Wikipedia

The Supermicro MicroCloud modular server system provides 12 modular server nodes conveniently integrated into a 29" deep chassis. These hot-pluggable server nodes operate independently. Each node is powered by Intel Xeon E3-1200 V2 series processor and provides up to 32GB ECC DDR3 1600MHz memory, support for MicroLP cards and 2x 3.5" or 4x 2.5" SATA hard drives.

### SuperServer® Systems | Supermicro

Supermicro Computer, Inc. is a leader in high-performance, high-efficiency server technology innovation and green computing, providing customers around the world with application-optimized server, workstation, blade, storage and GPU systems.

### ABMX Custom Servers - Since 1994

The Supermicro SuperServer line of servers provide the highest levels of performance, efficiency, scalability, and flexibility. They are available in a wide variety of application targeted designs and form factors.
