A Slow Death: 83 Days of Radiation Sickness by Nhk TV Crew Summary
Japan's worst nuclear radiation accident took place at a uranium reprocessing facility in Tokaimura, northeast of Tokyo, on 30 September 1999.

Amazon.com: Customer reviews: A Slow Death: 83 Days of ...

Given the renewed interest in alternative energy resources, A Slow Death: 83 Days of Radiation Sickness is a timely and sobering reminder of the dangers of nuclear power and man's relative ignorance in harnessing the power of the atom. It also raises provocative questions about the medical ethics of life-prolonging treatment and the value of human life itself in a world replete with advanced technology.
