Figure 8. Primary and reactionary all-cause delay, by IATA code (%) When analysing the average delay per flight and share of delay minutes for all causes grouped by IATA codes (Figure 8) the following can be observed: Reactionary delay saw a decrease in its contribution to the average delay per flight from 5.3 to 4.3 minutes.

*Delay Codes - Air Line Pilots Association, International*

The standard is described in IATA's Standard Schedules Information Manual and the codes themselves are described in IATA's Airline Coding Directory. (Both are published twice-annually.) The IATA codes originally based on the ICAO designators which were issued in 1947 as two-letter airline identification codes (see the section below).

*ATFM Delays in Europe - Eurocontrol*
