~~HOT IDEAS Isometric drawing: Opening up the activity to ...~~

The diagram on the right shows a set of three coordinate axes on an isometric drawing. What is the angle between each pair of axes? Because the angles between the three axes are all the same, each one must be 120 degrees. Is it possible to keep the distance between all adjacent grid points equal, and have some other angles between the axes?

~~Connect the Dots: Isometric Drawing and Coded Plans - Activity~~

Use this interactive tool to create dynamic drawings on isometric dot paper. Draw figures using edges, faces, or cubes. You can shift, rotate, color, decompose, and view in 2-D or 3-D. Start by clicking on the cube along the
