However if it is any help the base engine for the BMW D7 is a HATZ HE673 There used to be a parts list for these somewhere on the Internet and George Huxtable also used to have a lovely website about the BMW D7. Good points are that the Hatz has an iron head on an iron cylinder barrel so differential expansion is not a problem.

It would in fact make better sense to sell one's present boat and buy a Coribee with an inboard engine. But we have sold Nyoni once before, and when we bought her back we said we would not do that again. The BMW D7 is the inboard motor installed into Coribees from new, and the owners we talked to were very satisfied with them.

Alright, alright, don't laugh.... :) I've just bought one of these compact little engines in good running order with no apparent issues. I know that the spares situation isn't great, but is it really as bad as I'm told? All the bearings are a standard size and can be sourced from any good factors surely. Also, there must be countless Hatz engines knocking away on building sites, and they must ...
