How to use Manual focus on Canon Powershot cameras

A common question from Canon EOS owners is whether older manual focus lenses from other manufacturers can be used with a Canon EOS body. The answer is a qualified "yes" in many cases. Of course you don't get autofocus, nor do you get any sort of focus confirmation unless you use a special adapter with built in electronics.

Canon Manual Focus

When focusing is not possible in AF mode, use manual focus. You can specify the general focal position and then press the shutter button halfway to have the camera determine the optimal focal position near the position you specified. For details on the focusing range, please refer to the related information section at the bottom of the page.

How to use manual focus on your dSLR lens - CNET

Manual focusing is the easiest of the Live View focusing options on a Canon EOS Rebel T3 or T3i, and in most cases, it's faster, too. Simply set the lens switch to the MF position if you're using the kit lens or a similarly featured lens. Then twist the lens focusing ring to bring the scene into focus.

How to Take Great Photos with the Canon EOS 80D - Tom's Guide

Manual focus * Magnify the image by 5x or 10x and focus manually. (You cannot magnify the image during movie shooting.)

Canon EOS M50 . No Auto/manual focus button - Canon Community

Hello. I recently got an EF 50mm 1.8 lens for my EOS 60D. The automatic focus appears to be fine but turning the focus ring while in manual does not change focus at all. I've made sure that the lens is set to "MF" and I can see "M FOCUS" on my top display. I tried the lens on another camera and it...

CANON EOS 80D INSTRUCTION MANUAL Pdf Download.

Shooting in manual focus mode is a skill that you need to learn and practice. While you will have more time to get it right when shooting still objects - it can become more difficult when shooting moving subjects - so practice. This week set aside an hour or two with your camera to shoot only in manual focus mode.
