~~The Dirty Truth About How Often You Need Your Oil Changed ...~~

~~According to Ford Motor Company, drivers with typical driving habits that own 2008 and newer models should change their engine oil every 7,500 miles or six months, or whichever comes first. Meanwhile, drivers should change the oil in vehicles 2007 and older every 5,000 miles or six months, or whichever comes first.~~

~~Three Months, 3,000 Miles Or Longer?: The Truth about Oil ...~~

~~Car manufacturers often suggest changing oil filters every other time you have your oil changed. Most parts and oil manufacturers, however, say to replace oil filters with every oil change, which should occur every 3,000 miles or three months (whichever comes first).~~

~~When is the Right Time to Change My Oil? | CARFAX~~

~~Tips on how often to change the oil can be found in the instruction manual of your car. However, don't expect a vehicle manufacturer to suggest changing the oil less often than every 10-15 thousand km or every year. Even if they did, the instructions to change the oil every 25-30 thousand km should be treated with reserve, especially if you want to be able to use your car for a long time.~~

~~How Often Should You Change Your Oil? | Angie's List~~

~~Years ago, it was a good idea to change your engine oil and oil filter frequently, but because of advances in engine materials and tighter tolerances, as well as the oil that goes into engines,...~~

~~How often should you change the oil in your car? — Clark ...~~

~~Furthermore, if you don't change your oil on time and with the proper products, it could void your car's warranty. However, experts now say that the standard oil change interval of every three months — or every 3,000 miles (4,828 kilometers) — is old news, and that most cars can travel quite a bit farther before needing oil replaced.~~

~~Do You Really Need to Change Your Oil Every 3,000 Miles ...~~

~~There is much debate in the automotive world over how often drivers of typical passenger cars or light trucks should change their oil. The quick-lube chains usually recommend it be done every three...~~

~~How Often Should You Really Change That Engine Oil ...~~

~~Although new vehicles can run longer on the same oil than older ones can, and improvements in motor oil have extended its efficiency over longer periods of time, to be on the safe side, you might want to change your oil every 5,000 miles or every six months, whichever comes first.~~

~~How Often Should You Change Engine Oil | AAA Automotive~~

~~The rules have changed with the tech of the last 50 years. With the innovations in tighter build tolerances, fuel injection, more efficient engines, and higher-quality oils, manufacturers have updated their required oil weights and oil change intervals. Often a 5,000-mile to 10,000-mile oil change is the new normal, especially if using synthetic.~~

~~How Often Should You Change Your Oil Filter~~

~~For the most part, if your engine was designed for usage with conventional oils you can usually double the "severe" usage interval. While it varies greatly depending on the vehicle in question, you can usually run about 7,500 miles without needing to make an oil change.~~

~~How Often Should You Change Engine Oil — 6 steps~~

~~You need more frequent oil changes. They found no noticeable difference in engine protection whether you changed the oil every 3,000 or 7,500 miles. Ultimately, this one has to be a personal decision. Maybe you're comfortable changing every 3,000 miles and think 7,500 is too long to wait.~~
