I've been using Open Office 4 on a version of Windows 8. Before I download the latest version, I need a problem addressed. Open Office creates corrupted, unusable, or truncated files when saving a document in a non OpenOffice format, most often RTF, thus rendering Open Office useless for creating text files.

Another way to upgrade your document is to use the Word's save menu. While the document is open, click on the File tab and select Save As.. Then select Word Document from the format drop-down menu and hit Save.Keep in mind that this doesn't replace the old version of the document but creates a completely new copy of the document based on the newer Word software.
