Amazon.com: mercury 90 hp sport jet engine

I'm looking at a 90 hp Mercury Sport Jet in a Tracker 18' boat. Does anyone know anything about these motors and jet drives? Are they a problem motor, or do they do a good job? I'm going to run up the river arms chasing white bass. I will be going up 2 or 3 riffles above the back water. It is a 1995 model. Any help or suggestions will be appreciated.

Amazon.com: mercury sport jet

Mercury® jet-drive outboards are specifically designed to pilot boats in shallow waters where propeller-driven hulls are unable to operate. Because there's no lower unit extending below the hull, the jet drive permits passage over obstacles that would restrict access to a propeller-driven outboard boat.
