NINE-SOLUTION PROBLEM

The Nine-Bottle Challenge Name _____
Background: Almost all salts ("salt" is a name for an ionic compound) exist in water solutions as separated ions. For example, a solution of sodium chloride contains Na^+ ions and Cl^- ions, and no NaCl species. When solutions of different salts are mixed, the ionic species present may

EIGHT SOLUTION PROBLEM LAB ANSWER KEY PDF

, you will be given the same eight solutions. However, they will only be labeled with a letter. You will again combine each unknown solution with every other solution and use your observations to determine the identity of

Online Library Nine Solution Problem Lab Answers

each solution. To conserve chemicals, you will use conduct a “microscale” lab.
