php.ini is searched in these locations (in order): * SAPI module specific location (PHPIniDir directive in Apache 2, -c command line option in CGI and CLI, php_ini parameter in NSAPI, PHP_INI_PATH environment variable in THHTTPD) * The PHPRC environment variable. Before PHP 5.2.0 this was checked after the registry key mentioned below.

PHP: PHP Manual - Manual

The PHP manual is available in a selection of languages and formats. Pick a language and format from the table below to start downloading. Notes to read before you download. The English version should be considered the most accurate, since translations are based on that version. Most of the translations are not complete, and contain English parts.
