Pricing Strategy

A price list is a list of all the products and services your business offers and the prices that will be charged for them. Much contemplation and research should go into your pricing, as it can dictate the type of business you will be, the type of client you have and how many customers call.

How to choose a pricing strategy for your small business ...

Having the lowest price is not a strong position for small business. It invites customers to see your product or service as a commodity and obscures any value-add you offer. Plus, larger competitors with deep pockets and the ability to have lower operating costs will destroy any small business trying to compete on price alone.

How to develop your business plan | business.gov.au

Every business needs leaders at all levels who are able to hold the different strings together and make decisions for the benefit of the whole organisation. These people are often referred to as having strong business acumen. But what is business acumen about and how can you develop it? In this guide, we'll explore business acumen and the benefits of developing it.
