INTRODUCTION This competitive review compares system integration technology from Red Hat and MuleSoft. The comparison focuses on the features of Red Hat Fuse 6.2 and MuleSoft ESB Mule Enterprise 3.8 that allow messages to be received, processed, and delivered to target systems.

---

Chapter 5. AMQP - Red Hat Customer Portal

This book discusses the use, tuning and configuration of the MRG Messaging component of the Red Hat Enterprise MRG distributed computing platform. For installation instructions, see the Messaging Installation Guide. To learn how to program MRG Messaging applications, see the guide entitled Programming in Apache Qpid.

---

rabbitmq - Retrieve messages from an AMQP/AMQPS RabbitMQ ...

Inspired by a great blog post by Jakub Scholz on “Scalable AMQP infrastructure using Kubernetes and Apache Qpid”, I wanted to write a post about the ongoing effort to build Messaging-as-a-Service at Red Hat. Messaging components such as the Apache Qpid Dispatch Router, ActiveMQ Artemis and Qpid scales well individually, but scaling a large deployment [...]
