~~Better After Midlife ...~~

Drawing on cutting-edge research, award-winning journalist Jonathan Rauch answers all these questions. He shows that from our 20s into our 40s, happiness follows a U-shaped trajectory, a “happiness curve,” declining from the optimism of youth into what’s often a long, low slump in middle age, before starting to rise again in our 50s.

"In this warm, wise, and witty overview, Jonathan Rauch combines evidence and experience to show his fellow adults that the best is yet to come." —Steven Pinker, bestselling author of Enlightenment Now This book will change your life by showing you how I

~~The Happiness Curve—by Jonathan Rauch~~

The happiness curve is a natural phenomenon tracked through multiple species, and has been charted in multiple societies for the past several decades. In the US, we tend to bottom out around age 50. Few go through an actual midlife crisis, but almost everyone feels a general malaise and disappointment as your life hasn't lived up to your early adult dreams and high expectations.
