Leading in Metal Surface Treatment | Vecom Group

All competitors nitrite/borate-based water treatments are compatible with COOLTREAT NCLT, but allow old product to drop to lowest limit before dosing the VECOM MARINE product. It is only necessary to drain the cooling water when the competitor's product has a colour coder, or pH colour changer in it.

---

Water Treatment - Vecom Marine

Vecom is licensed to act as a collector and processor of various metallic acids and bases, waste water, rinsing water, pickling baths, etc. Industries with chemical waste streams The waste streams that Vecom processes come from various industries, such as galvanic, surface treatment, chemical, industrial cleaning and hazardous waste collectors.

---

Antifreeze Coolant | Vecom Marine

Metal surface treatment. General; Degreasing; Pickling and Passivating; Water jetting; Ultrasonic cleaning; Coolers, filters & heat exchangers; Ultra Clean cleaning (Oxygen clean) Electropolishing; On-site services. General; Pre-commissioning cleaning; Post-commissioning cleaning; Boiler cleaning; Pickling and Passivating of stainless steel systems; Cleaning of urea strippers

---

Condensate Treat | Vecom Chemicals

For optimum results, LIQUID COAGULANT should be dosed directly into the boiler via a VECOM MARINE dosing unit installed in the boiler feed line after the return line to the hot well. Any type of boiler coagulants should not be dosed into the hot well, as it will coagulate in the hot well and become an issue at a later stage.

### WATER TREATMENT - Marine Engineering

Removal and disposal of the waste water. After pickling the stainless steel, the treated surface should be rinsed with water. The water contains a small amount of pickling acid and dissolved alloying elements, such as iron, chromium and nickel. The rinse water can not be drained in a municipal sewer system.

### Water Treatment Vecom

Can be used with Vecom Marine cooling water treatment. Bacteria Control Effective against bacteria and algae in cooling water or ballast water. Boiler Treat Combi Conditions boilers and protects against the four elements of the boiler water: boiler pH, hardness scale, condensate pH and boiler coagulant. Suitable for boilers up to 35 bar pressure.

---

### Pickling bath maintenance - Vecom Group

Vecom marine is in the forefront of the development and distribution of marine chemicals for the marine industry. The company is founded in 1953 in Maassluis (near Rotterdam, Netherlands) by Dr. Willem Verbon, chemical engineer and inventor, and Jo de Vries, chief engineer of the Nedlloyd shipping company.

---

### Cooltreat NCLT | Vecom Chemicals

Vecom's lifting capacity. With the substantial lifting capacity, the large pickling baths and the on-site possibilities, Vecom ensures that all products can be treated. Vecom has two locations for pickling and passivating in the Netherlands: Vecom Maassluis and Vecom Enschede. Metals can be delivered and treated at the relevant location.
